Product Description

Using original bamboo strands to create bamboo fiber cups is a sustainable and eco-friendly choice. The addition of a genuine polypropylene sip lid allows for easy sipping of beverages such as tea and coffee. By using these reusable cups made from sustainable materials, you can help reduce the use of plastic and attract more clients who care about the environment. These fiber cups are designed to be small in size, making them easy to carry and practical to use. They can easily fit in your hands comfortably. With a 350ml capacity, they are suitable for holding tea or espresso. The silicone bands on these cups come in various colors, allowing for customization and branding opportunities. The lids also have a silicone covering, adding to their durability and functionality. The available colors for the silicone bands and lids are white, black, red, blue, and green, giving you a range of options to choose from. Additionally, screen printing is available, allowing you to add your business or brand logo to these promotional fiber cups. These cups make excellent promotional gifts, thanks to their sustainable materials and customization possibilities.
